The Portable Speaker Dock can operate on either batteries or by using the Home Power Adapter if you are near an outlet.

**STEP 1: Install the Batteries or Home Power Adapter**

1. Open the battery compartment on the bottom of the Portable Speaker Dock. Insert 8 C-cell alkaline batteries in the battery compartment.
   - Replace the battery cover.
2. Align the Radio with the Radio Dock Adapter.
3. Once aligned, gently press the Radio down so that it slides down Radio Dock Adapter and onto the connector until it is fully seated in the Portable Speaker Dock.
4. Press and hold the Power button on the top of the Portable Speaker Dock until the Power On light is on.
5. If your Radio did not power on, press the Power button on your Radio.

**STEP 2: Install the Dock Adapter for Your Radio**

Select the Dock Adapter for your Radio Dock Adapter Underside.

- XM Radios
- SIRIUS Radios
- XMp3 & XMp3i Radios

**STEP 3: Install the Indoor/Outdoor Home Antenna**

1. Insert the antenna cable into the antenna connector at the left rear.
2. Wrap the antenna cable into the storage area.
3. Place the antenna into the storage area at the rear of the Portable Speaker Dock. Align the mounting holes on the antenna with the 4 mounting brackets on the rear of the Portable Speaker Dock. Push the antenna over the mounting brackets and then slide the antenna down slightly to secure it in place.
4. Open the antenna camshaft so that the top of the antenna is facing the sky.

**STEP 4: Insert Radio and Turn On the Portable Speaker Dock**

1. Be sure the Portable Speaker Dock is powered off.
2. Align the Radio with the Radio Dock Adapter.
3. Once aligned, gently press the Radio down so that it slides down Radio Dock Adapter and onto the connector until it is fully seated in the Portable Speaker Dock.
4. Press and hold the Power button on the top of the Portable Speaker Dock until the Power On light is on.
5. If your Radio did not power on, press the Power button on your Radio.

**STEP 5: Adjust the Audio Level**

If your Radio has a Audio Level or Line Out Level adjustment feature in the Settings menu when it’s docked in the Portable Speaker Dock, you should set this level to the maximum volume that does not cause distorted sound. This will maximize the audio quality. Refer to the User Guide which accompanied your Radio for instructions on how to set the level.

Some Radios do not have this adjustment available when docked in the Portable Speaker Dock. These Radios set their level automatically to optimize the sound quality. No adjustment is necessary.

The installation is complete. Sit back and enjoy your favorite programming on SIRIUS/XM Radio!

---

**Portable Speaker Dock Controls and Connections**

- **Power Button**: Pressing and holding until the Power On light is on turns the power On. Pressing and holding again switches to power Off.
- **Volume/Mode Control**: Sliding a finger in short notice increments or decrements the volume level. Pressing twice mutes the audio and a circle of blue lights will flash while muted.
- **Aux In Light**: On when on, Portable Speaker Dock is set to Aux In input.
- **Aux In Button**: Pressing and holding until the Aux In light is on turns the Audio from an external device.
- **DC Power Connection**: Docking area for the Radio.
- **Antenna Connection**: Connection for the Indoor/Outdoor Home Antenna.
- **Antenna Cable Storage Area**: for indoor antenna placement.
- **DC Power Adapter**: Docking area for the Home Power Adapter.
- **Volume Level Lights**: Indicates volume level.
- **Audio Level**: Pressing and holding until the Audio Level light is on turns the audio to Mute.
- **Headphones**: Connection for headphones.
- **Volume Level Lights**: Indicates volume level.
- **Volume/Mode Control**: Sliding a finger in short notice increments or decrements the volume level. Pressing twice mutes the audio and a circle of blue lights will flash while muted.
- **Aux In Light**: On when on, Portable Speaker Dock is set to Aux In input.
