**STEP 1: Connect to a Network**

To Connect to a Wired Network:
- Plug the Radio into an AC outlet and press the Power button.
- Wait while the Radio searches for wireless networks. Then select your wireless network from the list.
- The Radio will attempt to connect to the wired network. If you chose a network that is secured, you will be prompted to enter the key (password).
- When the Radio has successfully connected to the wireless network, the Connected screen will be displayed. Continue with step 2.

To Connect to a Wireless Network:
- Select a highlighted item.
- Turning the “Troubleshooting” section on page 76 of the User Guide if you encounter any problems.

This Quick Start Guide covers the two most common types of network connections. If your network requires manual configuration, refer to the User Guide page 66 and page 71 for instructions. Also refer to the
